1. Product content / compliance

- 90% organic amino acids obtained by enzymatic hydrolysis - soybeans NON-GMO

2. Physical/chemical properties

AMINOTOP N comes in liquid form, has a brown color, with a specific smell.

3. Action mode / Description

AMINOTOP N is a biodynamic product, obtained by a process of rapid cold fermentation of organic matter and its mixing with organic and mineral NON-GMO substances that complies with the requirements of Regulation 889/2008, Annexes I and II.

Through its content, develops the plants foliage, the root system and ensures a healthy growth and development of agricultural crops.

From the field experience, when applied foliar, **AMINOTOP N**, through his formula, helps the plants to successfully overcome periods of hydric stress and moments of phytotoxicity that occur immediately after the application of herbicides (when the product is used in conventional agriculture).

Nitrogen is an essential nutrient for plants development.

4. Recommended dosage

From practical experience and / or available documentation, we recommend the following application dosage:

WHEAT, BARLEY, TRITICALS, SUNFLOWER, RAPE, SOYBEAN

1L – 1,5L / ha, in 200-400 liters of water
