1. Product content / compliance

- 10% organic amino acids obtained by enzymatic hydrolysis - soybeans NON GMO
- 10% kieserite (microelements - defined in Annex I - 834/2007)

2. Physical/chemical properties

AMINOTOP S+MG comes in liquid form, has a brown color, with a specific smell.

3. Action mode / Description

AMINOTOP S+MG is a biodynamic product, obtained by a process of rapid cold fermentation of organic matter and its mixing with organic and mineral NON-GMO substances that complies with the requirements of Regulation 889/2008, Annexes I and II.

Through its content, helps plants to have a regular growth process, develops the foliar and root system and helps to assimilate nutrients from the soil due to the intake of plant organic amino acids, obtained by enzymatic hydrolysis.

From field experience, when applied foliar to straw crops, **AMINOTOP S+Mg** helps the rapid development of plants, compliant flowering and high yields.

Sulfur and Magnesium are two indispensable nutrients in the fertilization technologies recommended for all types of crops.

4. Recommended dosage

From practical experience and / or available documentation, we recommend the following application dosage:

WHEAT, BARLEY, TRITICALS, SPRING BARLEY, DURUM WHEAT:

1L – 2L / ha, in 200-400 liters of water
