Important events to be reported: Conclusion of a distribution partnership with Rodnic

The management of Norofert SA (hereinafter referred to as "the Company") informs the market about the conclusion of a partnership with Rodnic, a one-day-old chicken producer, which entails the distribution of the Norofert Fito organic line through the Rodnic phyto-pharmacy network. The hobby gardening line includes fertilizers and phytosanitary products for gardening and small farmers, being the first line of the Company that addresses the general public.

The Norofert Fito line is based on 8 products, which include organic fertilizers, insecticides and fungicides, recommended to be used throughout the entire plant life-cycle, to ensure their complete health. The products can be used for small areas, up to 1 hectare, and are suitable for all types of vegetables, fruits and flowers.

Thus, through this partnership, the Company expands the distribution area of Fito sanitary products and Rodnic expands its product range to meet all the needs of its customers, providing in addition to one-day-old chicken other products necessary for any household.
