

CALCIU

Contains: CaCO₃ calcium carbonate

Amendment of Sol

Formulations: suspension

The product can be used in organic farming in accordance with Regulation (EC) 848/2018

Hazard statements

Not applicable

Precautionary statements

P501 – dispose of contents/container in accordance with national/international regulations.

e 500 gr

Lot. no.: See above

Date of manufacture: See above

Validity period: 24 months

Storage: Store in a dry, cool and well-ventilated place. Storage temperature 5⁰ C - 25⁰ C

Attention: Read the instructions before use.

Manufacturer: Norofert SA

Street LT. AV. Șerban Petrescu, Nr. 20, sector 1, Bucharest, Romania

Phone: 0766 080 767

For your attention: By observing the indications presented, the product can be used for its intended purpose. The manufacturer declines any responsibility for damages due to storage, handling or use not in accordance with the recommendations on this label.

Action mode: Helps to improve fertilizer efficiency by reducing soil sensitivity to adverse weather conditions such as drought or torrential rain. They essentially improve the structure of the soil, allowing water to drain. It contributes to loosening the soil and to the optimal development of the root system of plants with a direct role in the mobility of nutrients in the soil. It develops an environment conducive to microbial life and to small living creatures in the soil (responsible for loosing).

Application: To all crops in the garden, apartment such as vegetables, flowers, fruit trees, ornamental plants. Apply by spreading the powder on the lawn affected by the

muscles (then it gets wet). Soil application 2 kg/10 m², or ½ teaspoon at the root when replanting small seedlings or 1 spoon when planting seedlings.

Hygiene measures and labor protect:

Avoid contact with skin, eyes and clothing. Use personal protective clothing. Do not eat, drink or smoke while using. Hands and/or face should be washed after use. Keep out of reach of children.

Environmental protection measures:

Do not unload on the ground/in the basement. Prevent the product from reaching surface waters by any measure.

Storage and transport conditions:

Store in a dry, cool and well-ventilated place. It will be protected from direct sun exposure and will protect from frost. Keep container tightly closed. Storage temperature 5⁰ C – 25⁰ C.

Validity period : Two years from the date of manufacture.
